Question 1: What is the difference between good debt and bad debt? Answer: Good debt is an investment that will grow in value or generate income, such as a mortgage for a home or student loans for education. Bad debt, on the other hand, is debt incurred for items that depreciate or do not add value, like credit card debt for consumer goods or luxury items. Ramsey advocates minimizing bad debt and being cautious even with good debt, ensuring it aligns with long-term financial goals.

Question 2: Describe the debt snowball method and explain why it is effective. Answer: The debt snowball method involves listing all debts from smallest to largest balance, then paying off the smallest debt first while making minimum payments on others. Once the smallest debt is paid, the amount previously allocated to it is rolled into paying the next smallest debt, creating a snowball effect. This method provides quick wins, boosts motivation, and builds momentum to eliminate larger debts more efficiently.

Question 3: Why is understanding your credit report important? Answer: Your credit report provides a detailed history of your borrowing and repayment activities. Understanding it helps you identify errors, monitor your credit health, and improve your credit score. Ramsey emphasizes that a good credit score can lead to better loan terms and lower interest rates, which are crucial for financial stability and growth.

Question 4: What are some common misconceptions about debt? Answer: Common misconceptions include believing that all debt is bad, that credit cards are inherently dangerous, or that paying only the minimum on debts is acceptable.
